**TERMINAL DISCLAIMER UNDER 37 C.F.R. §1.32(b)**

Commissioner of Patents  
P.O. Box 1450  
Alexandria, VA 22313-0001

In response to an Office Action dated February 20, 2007, applicant, through their attorneys, submit the subject Terminal Disclaimer Under 37 C.F.R. §1.321(b). Applicant and assignee note the Examiner's statement that a timely filed terminal disclaimer may overcome an actual or provisional rejection based on a non-statutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. The undersigned attorney submits on behalf of applicants, Anthony J. Dezonno, Jeff Hodson, Roger Summer, Mark Power, Carlo Bonifazi, Craig Schambaugh, Mark Michelson, and Robert Beckstrom, and assignee, Aspect Software, Inc., a terminal disclaimer showing common ownership of the subject patent application and copending U.S. Patent Application No. 10/651,329.

On behalf of applicant and assignee, the undersigned attorney represents that assignee owns the entire right, title and interest in the subject matter disclosed in the above-identified

patent application. Applicant's attorney also represents that assignee owns the entire right, title and interest in the subject matter disclosed in U.S. Patent Application No. 10/651,329.

Applicant and assignee hereby disclaim the terminal part of any patent granted on the above-identified patent application which would extend beyond the expiration date of any patent granted on commonly owned U.S. Patent Application No. 10/651,329.

Applicant and assignee acknowledge that any patent granted on the subject application shall be enforceable only for and during such period that said patent application is commonly owned with any patent granted on the commonly owned U.S. Patent Application No. 10/651,329.

Applicant and assignee do not disclaim any terminal part of any patent granted on the above-identified patent application prior to the expiration date of the full term of any patent granted on U.S. Patent Application No. 10/651,329 in the event that it later expires for failure to pay a maintenance fee, is held unenforceable, is found invalid, is statutorily disclaimed in whole or terminally disclaimed under 37 CFR §1.32(a), has all claims cancelled by reexamination certificate, or is otherwise terminated prior to expiration of its statutory term except for the separation of legal title stated above.

Applicant and assignee acknowledge that any patent granted on subject patent application Serial No. 10/648,923 or any patent subject to reexamination proceedings shall be enforceable only for and during such period that said patent is commonly owned with U.S. Patent Application No. 10/651,329 and any patent granted thereon which formed the basis for the rejection.

Payment in the amount of \$130.00 as the disclaimer fee pursuant to 37 C.F.R. §1.20(d) has been submitted herewith.

The Commissioner is hereby authorized to charge any deficiency in the required fee or to credit any overpayment to Deposit Account No. 23-0920.

Respectfully submitted,

  
James A. Scheer
